

# W<sup>2</sup> Case Quickstart Guide

## 1 Open the W2 Case & Power On

Remove Top Cap

Slide RileyLink out & switch on

## 2 Close the W2 Case

Close Top Cap, hold closed for 10s to vent air

## 3 Pair RileyLink

<https://loopkit.github.io/loopdocs/>

## 4 How to Charge your RileyLink

Qi Wireless Charging Pad  
Align the \* to the center of charging pad for optimal charge coupling

USB Cable (not included)

## 5 Other Information

Damage to the vent may occur if poked with a sharp object, resulting in loss of water resistance.

Your case is designed to resist splashes, dunks, and occasional submersion in water up to 1m, however it is not recommended to swim with your W<sup>2</sup> Case. Water ingress could occur during prolonged submersion, resulting in damage to your RileyLink board. Signal loss will occur if the RileyLink is submerged or damaged.
